

Dear Sirs,

Passing the Telephone Privacy Law has been one of the greatest and finest achievements of our legislature. It has been the envy of many states and the US Government as they attempt to pass similar

laws for their own states. To allow a softening of this law would be a crime. We are bombarded from every angle imaginable with advertising these days and there is no need whatsoever, that our home lives need be intruded upon in this manner. When my children lived at home, we shared dinner together-**EVERY NIGHT!!!**, when the phone calls of this nature stopped, it made conversation during dinner with all of us much more rewarding. There is a time for business, and a time for family. Corporate invasion of our home lives and time together is now illegal and should be kept that way.

Thank You for your time,

A. T. Webster
